

Features

- * Supports HDMI standard, compatible with HDCP. HDBaseT port transmits 1080P signal as far as 70 meters (Cat6), must be used with transmitter / receiver.
- * HDBaseT Indicator status: when power is on, the green light flashes; when connected with network cable, yellow light is lit.
- * HDBaseT ports support PoE remote power supply, which can supply power to Transmitter / Receiver via straight-through Twisted Pair.
- * Input audio supports command and GUI interface selection: HDMI embeds audio (factory setting), 3P analog audio.
- * RS232 serial port enables two-way communication and control.
- * Support EDID management and DDC communication.

Specifications

Model	TS-9201TR
Input Signal	1-way HDBaseT signal, one-way stereo signal
Input Connector	RJ45 port, with yellow and green indicator, 3P port (female)
Consumption	13.5W
Control Signal	C1-way RS232 control signal
Control Port	3-pin plug terminal
Transmission Distance	1080P ≤ 70 meters (Cat6)
Switching Rate	<100ns
Operating Temperature	0°C ~ + 50°C
Relative Humidity	10% to 90%
Support Audio Format	PCM
Support HDMI, compatible with DVI standard, compatible with HDCP	
Supports EDID learning management function
